

# BEHMOR BREWER

Quick Start Guide

**Congratulations!** You are now the proud owner of a Behmor Brewer! Brewing coffee can now be as simple as pressing the “Start/Stop” button or by easily adjusting the Behmor Brewer’s unique settings to your preference from your smartphone.

**1. Press Start/Stop**

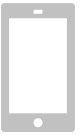

Your Behmor Brewer ships with a preset profile that works right when you plug in your brewer.

OR >

**2. Download App**

Search for and download the FREE Behmor app from the App store or Google Play.

**3. Launch App**

Follow the easy instructions in the app to connect your Behmor Brewer.

**4. Choose Cups**

Choose the number of cups by tapping on the up and down arrows on the cup section of the app.

**5. Brew Temperature**

A good starting point is 202°F but don't be afraid to experiment based on coffees, roast profiles, and your taste buds.

**6. Pre-Soak Time**

Allow your coffee to bloom prior to brewing. 45 seconds is a good start; with fresher coffees a longer pre-soak time is recommended.

**TIP:** Brewer default is, 8 cups, 200° F, and 45 second pre-soak time

A passion for all  
things coffee.
